How to Stop Phone Distractions While Studying with Physical Friction

By the end of this worksheet you will have put "How to Stop Phone Distractions While Studying" into practice at least once.

Your action steps

[ ] 1. Establish a dedicated charging station outside your immediate reach
The most effective way to prevent unconscious phone checking is to remove the device from your immediate physical environment.
Notes: _____

[ ] 2. Introduce physical barriers to increase the effort required to access your device
If you must keep your phone in the same room for specific reasons, you need to make accessing it as difficult as possible.
Notes: _____

[ ] 3. Replace the empty space on your desk with a physical analog substitute
When you remove your phone from your desk, your hands will still automatically search for something to grab during natural study pauses.
Notes: _____

[ ] 4. Remove visual cues by switching your screen to grayscale mode
Modern smartphone interfaces are designed with bright, saturated colors that naturally draw your eyes to the screen.
Notes: _____

[ ] 5. Log out of all communication and social media accounts before studying
Having instant access to your accounts makes distraction only one tap away.
Notes: _____

Reflection

Which step felt easiest, and which one did you avoid?

_____

What got in the way, and what is one small change that would help tomorrow?

_____

What will you do differently in your next session?

_____

7-day check-in

Day 1: [ ] Practiced Minutes: _____ One-line note: _____
Day 2: [ ] Practiced Minutes: _____ One-line note: _____
Day 3: [ ] Practiced Minutes: _____ One-line note: _____
Day 4: [ ] Practiced Minutes: _____ One-line note: _____
Day 5: [ ] Practiced Minutes: _____ One-line note: _____
Day 6: [ ] Practiced Minutes: _____ One-line note: _____
Day 7: [ ] Practiced Minutes: _____ One-line note: _____

This is a practical exercise, not professional advice. Adapt it to your own routine.
